Profile

I am eager to learn and adapt to the company's work culture with guidance from my seniors. I want to apply my knowledge, share innovative ideas, and continuously improve myself to contribute effectively.

Projects

Password Generator [🔗](#)

Django and Bootstrap 5 UI

Developed a responsive web application using Django and Bootstrap 5 to generate strong, customizable passwords—allowing users to select length (6–14 characters) and include uppercase letters, numbers, and special symbols in a user-friendly interface.

Car Parking Management System [🔗](#)

PHP and MySQL

Developed a PHP-based web application using MySQL and XAMPP to manage car parking operations, featuring real-time slot availability, user/admin authentication, slot booking, automated billing, and comprehensive user/admin dashboards.

Personal Portfolio & Blog Web Application [🔗](#)

Django and Bootstrap 5 UI

Built a dynamic Django-based personal portfolio and blog platform with integrated media management, featuring custom portfolio pages, blog functionality, and database-backed content management.
